TIPS AND TRICKS, PART THREE: ACCESSING ONLINE ARTICLES
Accessing Articles: Start with PubMed

- Start with this link!
- Why? It has a special URL set to display the “Locate@Darnall” button when we have access.

Locate@Darnall

Tips and Tricks, Part Three: Accessing Articles
1. Type in your search.
2. Press the “Search” button.
3. From the search results, go to “Format” and change “Summary” to “Abstract.”
Click on the “Locate@Darnall” button at the end of the citation.

If there is no “Locate@Darnall” button, make a note of the PMID, or copy / paste the citation so you can request via interlibrary loan.
The link should open a new tab at the publisher’s page. If you see the frame on the right side of the screen and no page, try a different browser.
Click on the PDF icon.
Different publishers have the icon in different locations.
Note that some publishers are now using a download icon.
